## 1. Terms of the offer

### **Distributions**

We intend to make, where possible, loans carrying specified interest rates or investment returns to help us achieve stable revenue streams and support our prime objective of being able to pay our Shareholders an attractive dividend. Our Dividend Policy is to distribute profits to shareholders after ensuring sufficient liquidity is maintained to sustain and grow the business. Our Dividend Policy also prohibits the payment of dividends from Share Capital. Our investment documentation will include wherever possible the right to increase interest rates or investment returns so as to achieve growth in value if economic conditions favour an increase. You should be aware that, while an increase in the level of equity investments that we make over time is likely to enhance the growth of your capital, you may experience more fluctuation in the dividend rate that we can pay. A range of factors may impact the distribution rate. By way of example, these factors could include

- The number of shares subscribed for.
- Your individual circumstances for tax purposes.
- Our fixed and variable costs.
- Our solvency and performance of our obligations.

Distributions (if any) will be made quarterly on or around the 14<sup>th</sup> day following the end of each Calendar Quarter (30 June, 30 September, 31 December and 31 March). Distributions will be made to each Shareholder who held Shares during the relevant distribution period in proportion to the number of Shares held and the number of days since those Shares were allotted.

The actual amounts distributed (if any) will be set by the board who will give prudent consideration to our future liquidity requirements before determining any distribution amount. The amount of any distribution may vary in accordance with the board's assessment of our liquidity position and determination of our operating requirements. Neither we, nor any of our Directors, employees, advisers or promoters guarantee the payment of any return on the Shares.

\*Dividends are shown "Gross" before the deduction of any PIE tax payable up to March 31 2023. PIE tax payable is calculated based on the amount of Senior Trust Capital's taxable income attributable to each Shareholder and the Shareholder's PIR, which will vary for each Shareholder. Where new Shares are allotted during the quarter the dividend payment is pro-rated for the relevant period.

The Dividend shown from April 1 2023 is on an After Tax Basis.
